Regarding the above-mentioned scientific fields, Prof. Dr Oruč published two scripts for students as a mean of help for performing computational and laboratory exercises. She was also the author of many textbooks.

At the Institute of Metallurgy, she participated as an author and co-author in preparing 28 studies and was engaged in more than 60 expertise works and reports, and as well, in many projects in the field of metal materials.

She is the Chairwoman of the Technical Committee BAS/TC-4 and a member of the Advisory Council of accredited bodies of B&H.

In addition to dozens of published papers at conferences and in journals, she also published several books and monographs as author or co-author.
